- 2,000+ Skilled & Trained Professionals
- South India Presence – Chennai & Bengaluru
- Standardised Operational Processes
- 24/7 Operational Support
- Dedicated Account Management
- Customised Facility Solutions
- Transparent Reporting & Compliance

OUR SERVICES

Security Service

Protect your premises with professionally trained, disciplined, and background-verified security personnel. We provide trained security guards, security supervisors, access control management, visitor management, patrolling support, and surveillance coordination to safeguard client locations.

Housekeeping and Janitorial Services

Maintain a clean, hygienic, and presentable workplace with our professional housekeeping solutions. Our experienced staff manage offices, common areas, washrooms, public spaces, and daily cleaning activities while following industry-standard sanitation practices.

Integrated Facility Management Services

Our end-to-end facility management services streamline daily operations by combining housekeeping, security coordination, engineering maintenance, landscaping, and support services under one professionally managed solution.

Building Maintenance Service

Our certified technicians provide comprehensive preventive and corrective maintenance support for electrical systems, plumbing, HVAC, mechanical equipment, civil works, and essential infrastructure. We deliver reliable technical manpower and maintenance solutions to ensure the safe, efficient, and uninterrupted operation of commercial, residential, industrial, and institutional facilities while maintaining optimal performance and compliance standards.

STP & WTP Operations

We provide experienced operators for Sewage Treatment Plants (STP) and Water Treatment Plants (WTP), ensuring efficient plant operations, regulatory compliance, and optimal water management

Landscaping Garden Maintenance Services

Enhance your property's appearance with expert landscaping, horticulture, lawn care, irrigation support, and seasonal garden maintenance services.

Pest Control Service

Our pest management professionals use safe, compliant, and eco-friendly treatment methods to control insects, rodents, termites, and other pests while maintaining a healthy environment.

Swimming Pool Maintenance

We offer complete swimming pool maintenance, including water quality testing, chemical balancing, cleaning, filtration system maintenance, and safety compliance for residential and commercial pools.

CCTV Installation & Surveillance

Strengthen your security infrastructure with professional CCTV system design, installation, monitoring, maintenance, and surveillance solutions tailored to your facility's requirements

Payroll & Staffing Solutions

Simplify workforce management with compliant payroll processing, contract staffing, recruitment support, attendance management, and workforce administration services

Patient Care & Nursing Support Services

We provide qualified Patient Care Assistants (PCA), General Duty Assistants (GDA), Caretakers, Ward Assistants, Home Healthcare Professionals, and Hospital Support Staff to deliver compassionate and reliable patient care.

Professionally Trained Workforce

Every employee undergoes training, background verification, and continuous skill development to ensure consistent service quality across client locations.
